CONFIDENCE IN SLAVS IS SHOWN BY ANOTHER LOAN

Washington Not Alarmed By Premier's Interview—Sends \$1 Million Dollars

KERENSKY SAYS ALLIES MUST BEAR THE BURDEN

Russia is Worn Out By Three Years of Continuous Fighting

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 2.—The government's apparent faith in Russia was indicated today in the authorization for a loan of \$1,000,000 out of credits previously arranged for, which was to be placed to the credit of the Russian government at the federal reserve bank of New York during the day.

Secretary Lansing today authorized the statement that neither on the basis of many field reports to the government nor on the basis of Premier Kerensky's statement, could it be said that Russia was about to quit the war. The government, he said, deplored constructions to the contrary.

While Premier Kerensky's remarkable statement of Russia's situation created a profound sensation among American officials and all the allied diplomats here, they note with confidence his basis that Russia is not out of the conflict however.

(ASSOCIATED PRESS TELEGRAM) Petrograd, Nov. 2.—In view of reports reaching Petrograd that the impression was spreading abroad that Russia was virtually out of the war, Premier Kerensky discussed the present condition of the country frankly today with the Associated Press. He said Russia was worn out by long strain but that it was ridiculous to say the country was out of the war.

The premier referred to the years in which Russia had her own campaigns alone, with no such assistance as has been extended to France by Great Britain and now by America, he said he felt help was needed, and that Russia asked it as her right. He urged that the United States give aid, in the form of money and supplies, and appealed to the world not to lose faith in the Russian revolution.

Russia, Mr. Kerensky added, was taking an enormous part in the struggle and those who said she was out of it must have short memories. "Russia has fought consistently since the beginning. She saved France and England from disaster early in the war. She is now worn out by the strain and claims as her right that the allies now should bear the burden."

The premier Kerensky explained Russia's position to the correspondent. The premier was seated in the library of the former private office of the emperor in the winter palace. (Continued on Page 2, Col. 2.)

STOCKS RISE WHEN CURB IS PLACED ON SHORT SALES

(ASSOCIATED PRESS TELEGRAM) New York, Nov. 2.—The curb placed yesterday by the Stock Exchange authorities on short selling was followed at the opening of the market today by a vigorous rise in stocks. The buying appeared to be the covering of shorts and indicated that both in industrial and rail there has been a tremendous short interest. United States Steel, target recently of bear drives, opened with a single lot of 30,000 shares at \$51.25, a gain of 4.58 points over yesterday's close. Other industrials and shipping jumped 2 to 4 points, and leading rails 3 to 4 1/2 points. This rise was followed, however, by rapid reaction, steel selling down to \$51.4. The trading was intensely active and confused. The ticker-tape was much behind in recording transactions.

Advices from Pittsburgh reporting that the authorities of that exchange had established minimum prices, acted as a partial check to the advance. Trading quieted after 11 o'clock with further price irregularity.

The strength of Scandinavian exchange, which made a sensational overnight advance, excited some discussion. The rise was ascribed to purchases of bills on Copenhagen, Stockholm and Christiania, against sales of American securities in this market by Scandinavian holders.

HURT ON MOTOR RIDE SUES HOST FOR DAMAGES

(ASSOCIATED PRESS TELEGRAM) Cleveland, Nov. 2.—Charles J. Steese, Massillon, O., banker, is named defendant in a suit brought in common pleas court by Nita E. Baughman of Cleveland for \$75,000 for injuries which she says she sustained during an auto ride with Steese on June 13, 1916. Steese had invited her and other friends for a ride, she said. She alleges he drove so fast that the auto crashed into a freight car on the B. & O. crossing at New Berlin.

STATEMENT THAT RUSSIA IS DONE ROUSES LANSING

Nothing in Kerensky Interview to Warrant Such Conclusion He Says

SCORES WASHINGTON PAPER FOR ERROR IN HEADLINE

Slav Minister Declares Russia is Holding Off 147 Divisions of Germans

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 2.—Premier Kerensky's warning that Russia's allies will have to bear her burden of the conflict while the war weary nation regains its strength, exhausted in three years of fighting enemies without and within, has aroused new expressions of confidence in Russia's future, and assurances of support from the United States government and the representatives of all the allies.

The Russian embassy made the premier's statement of Russia's position the occasion to reiterate that she has no intention of quitting the war and the state department, in an authorized announcement declared that in no way could the premier's statement nor any of its official advice be construed to mean that Russia seeks a separate peace.

As another mark of confidence in the Russian government in which the treasury department today authorized the immediate advance of \$1,000,000 out of the credits of \$325,000,000 already authorized.

This would bring the total actually paid the Russian government out of credit, previously authorized up to \$180,000,000.

Secretary Lansing deplored any interpretation of Kerensky's statement to the effect that Russia was about to quit the war, assailed the Washington Post, which printed over a brief and preliminary account of Kerensky's statement the headline: "Russia Quits War." He authorized this statement.

"There has been absolutely nothing in the dispatches received by the department of state from Russia nor information derived from any other source, whatever to justify the impression created by the Washington Post today principally by the headline 'Russia Quits War,' that Russia is out of the conflict."

A reading of the full interview with Premier Kerensky, of which the paper published only an abbreviated and preliminary account itself, shows that the headline is entirely unwarranted. Our own advice shows that the provisional government in Petrograd is attacking with great energy the problems confronting it. Reports received from Petrograd by mail and telegraph, show that Premier Kerensky and his government are still animated by a strong determination to organize all Russia's resources in a whole-hearted resistance and carry the war through to a victorious completion. At the same time this government like those of the allies is rendering all possible assistance.

The Russian embassy also issued a statement criticizing the manner in which the Washington Post presented the Petrograd dispatches. "Russia is not out of the war," said the embassy statement. "No word in Kerensky's interviews give warrant for any assertion of that kind. As a matter of fact, the premier stated the exact opposite."

While acknowledging that only part of the Petrograd dispatches were printed in the Post, the embassy statement added, even the part of it published does not give any justification to the preposterous and most injurious headlines by which it was entitled to publish.

"A cable received lately," says the statement, "and which is given out to the press today, shows the real military conditions on the Russian front. The best answer to the malicious assertion that Russia is out of the war will be the fact given by this cable that we are holding at the present on our front 147 divisions of enemy troops."

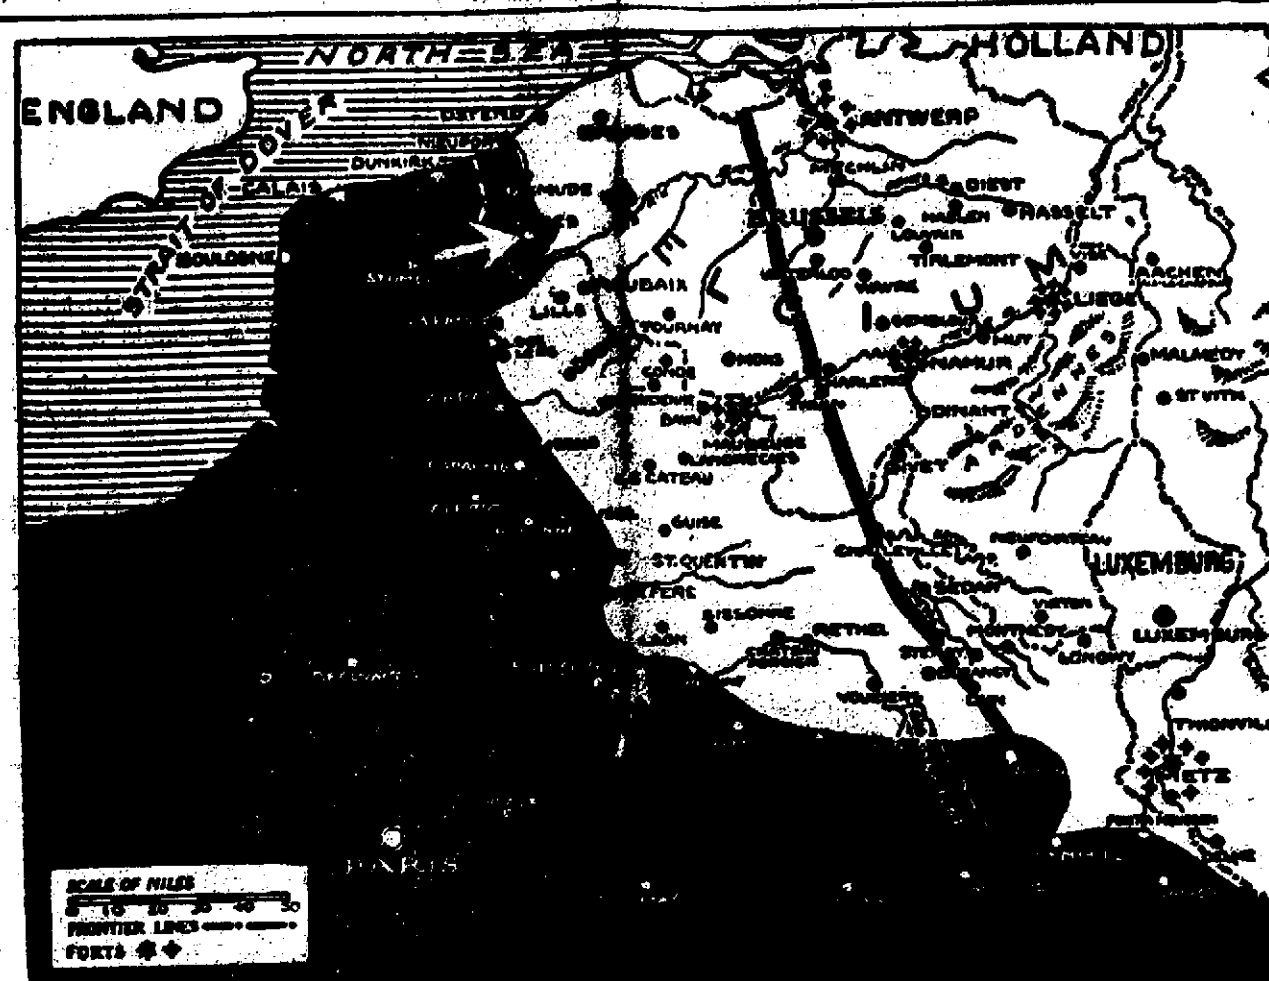

DRAFT DESERTER GETS TEN YEARS IN LEAVENWORTH

(ASSOCIATED PRESS TELEGRAM) Camp Custer, Battle Creek, Mich., Nov. 2.—The first court martial sentence for desertion was imposed today. Frederick J. Hagia, of Highland county, Mich., was sentenced to ten years at Ft. Leavenworth prison.

PACIFIC STEAMER HITS ROCKS; PASSENGERS SAFE

A Pacific Port, Nov. 2.—Efforts were being made today to float the Pacific steamship company's steamer, which went ashore last night in the breaker here with 150 passengers, all of whom were transferred to another vessel without incident. The steamer struck the rocks bow-on in a heavy fog. The vessel early today remained on an even keel and it was not believed she suffered serious damage.

WAR EXPERTS FORESEE GERMAN RETREAT ON WEST FRONT.

Solid black shows present territory occupied by allies; arrows indicate French attack on the Aisne and British offensive about Ypres; dashed lines show next German position.

In reviewing the progress of the war, Secretary Baker recently declared his belief that the Germans could not hold out much longer on their present lines in France. This idea is shared by many military experts, who point out that the Germans must retire to a new line—this fall, if the weather permits continued allied operations; and at the least not later than next spring.

LAY PLANS FOR LONG WAR IS ADVICE GIVEN BY ENGLAND'S SEA LORD TO PARLIAMENT

(ASSOCIATED PRESS TELEGRAM) London, Nov. 2.—"We must lay plans for a long war," declared Sir Eric Geddes, First Sea Lord of the Admiralty in his maiden speech in the house of commons yesterday in which he discussed England's navy, ship building and other questions uppermost in the minds of Englishmen.

Geddes declared that 40 to 50 per cent of the submarines operating in the war zone had been sunk and that during the last three months more U-boats had been sunk than in the whole year of 1916.

"Sir Eric said he regretted it had not been found possible to arrive at a basis for publication of British tonnage losses by submarine action without giving information to the enemy."

The losses of merchantmen in October, he said, were very slightly worse than in September. Enemy submarines were being sunk to an increasing extent, but the Germans were building them faster than they had done hitherto.

In September, Sir Eric continued, there was afloat on the high seas an increase of 20 per cent in numbers and 30 per cent in tonnage of British ships as compared with April.

He announced the government's intention of appointing an additional civil lord of the admiralty and said the attention of the first sea lord would be devoted wholly to naval staff matters.

Standard ships aggregating 1,000,000 tons had been arranged for, he said, and more than half of them were under construction.

The total net reduction of British tonnage since the beginning of the war was given by Sir Eric as 2,500,000 tons.

Replying to the statement that the fleet had not been sent to assist Russia, he pointed out that such an operation would occupy considerable time and that there were extensive mine fields. Responsible naval opinion was unanimous that the step was not one which should be taken.

A reduction of 50 per cent in German merchant shipping, Sir Eric continued, had been caused by the sinking of ships or by their passing into the hands of Germany's enemies.

In September, he continued, the royal naval service carried out 64 raids behind the enemy lines in Flanders, dropping 2736 bombs.

Replying to criticism regarding the recent loss of a Scandinavian convoy in the North Sea, Sir Eric said had the British navy been informed of the attack, which it was not, its position was such that it could not have wished a better opportunity of intercepting the raiders.

The Scandinavian convoy system had been going on since April, he added, and this was the first occasion on which any ship had been lost.

A section of the press, supported by certain naval officers of high standing, is carrying on a campaign with the objective of ousting Admiral Sir John Jellicoe as first sea lord. The admiral has been the subject of attacks for his alleged lack of strategic ability and insufficiently forward policy.

The admiral's defenders in other quarters have been equally active. (Continued on Page 14, Col. 2.)

SHORT SELLING ON EXCHANGE UNDER SUPERVISION TODAY

(ASSOCIATED PRESS TELEGRAM) New York, Nov. 2.—Supervision of short selling on the New York stock exchange, decided upon by the board of governors yesterday following the greatest decline of securities of the year went into effect today. The action is the most drastic war measure put into effect by the board since the exchange closed in the early days of the war. Recent "vicious" short selling on the market has been attributed in some quarters to German interests as part of an organized propaganda to create pessimism.

There is no intention on the part of the exchange to eliminate short selling. Members of the board of governors say that short selling operations possess valuable functions which are necessary at times to stabilize prices.

The new trading rules, just adopted will put into the possession of the board of governors at noon every day the names of speculators who have sold stocks which they did not own, with the purpose of buying them back later at cheaper prices. All members of the exchange must now supply the names of customers for whom stocks are borrowed in the process of completing short sale transactions. Leaders of stocks will also be required to inform the governors of the names of brokers to whom they loan stocks.

Market raiders who have been depressing values by short sales and the circulation of false rumors will be exposed.

ALLIED TROOPS IN ITALY AID PREPARATIONS FOR GREAT COUNTER ATTACK

Important Battle Along Tagliamento River Line is Forecast By Dispatches From Front—Italians End Retreat and Turn to Face Foes

ENEMY PATROLS REACH RIVER LINE ARTILLERY FIRES FROM NEW LINE

Unexpected Heroism Shown By Many Detachments of Italian Troops—Main Body of King Emmanuel's Army is Intact and Has Dealt Several Severe Blows to Advancing Huns—Third Army Apparently in Saved—Spirit of Troops is Excellent—Events On Other Fronts Overshadowed By Menace to Italy's Safety

(ASSOCIATED PRESS TELEGRAM) Italian Headquarters in Northern Italy, Thursday, Nov. 1.—Italian and allied troops are preparing for a counter offensive. A great battle based on the line of the Tagliamento river is forecast.

Austro-German patrols have advanced to the banks of the Tagliamento river, along which the Italians are making a stand. The war office announces that these patrols were repulsed.

Not only is the main body of the Italian army intact, after having dealt several blows to the enemy, but it is now apparent that the Italians have thwarted the Austro-German plan of encompassing the third army on the Carso, thereby cutting off the flower of the forces in this region, rendering the Venetian plains defenseless.

The safe retirement to the Tagliamento was due to the unexampled heroism of large bodies of Italians of such spirit as the Alpini on Monte Nero, who refused to surrender, and the regiments of Bersaglieri at Monte Maggiore, which perished to the last man rather than yield ground.

The spirit of the army now confronting the enemy is excellent. The cavalry rearguard continues to screen the movement of the main body of the Italian army to its newly chosen position, and at the same time to check the advance of the enemy lines.

General Cadorna's bulletin last night gives the first intimation where the advance is making itself felt along the hills connecting San Daniele Del Friuli, the Ledra canal and Pozzullo Del Friuli, making a curved line some miles west of the Isonzo river.

Military necessity still restricts rigidly the sending of details of the operation and the mention of places, but within these close limits, some general idea can be given of the heroic resistance of the main part of the Italian army gave to the rush of overwhelming numbers.

The retirement was accomplished by shielding operations of the rearguard which poured a deadly fire into the advancing columns and, at the same time destroyed powder depots, arsenals, and bridges with the double purpose of giving time for the withdrawal of the Italian heavy guns and of preventing military stores falling into the hands of the enemy.

The Germans encountered stubborn resistance on the Bainsizza plateau, and heaps of enemy dead mark the lines of their advance. Around Globo ridge a Bersaglieri brigade, outnumbered, five to one, held back the enemy while the main line had an opportunity to get its retreat in motion.

In one of the mountain passes a small village commanding the pass was taken and retaken eight times during the desperate fighting, infantry and hand-to-hand fighting.

As depots and arsenals were blown up the whole sky was lighted with a great red glare and dense masses of smoke formed in an enormous pall like the approach of an equinoctial cyclone. Added to the fearful din and heavy shell-fire on front and flank was the continuous explosion of powder depots, the Italians slowly fell back screened by a rearguard of a Bersaglieri brigade which threw up hasty breastworks and contested every foot of the way.

This permitted much of the heavy artillery and munition supplies to be withdrawn, but it was a prodigious task in the face of such odds and over such steep inclines.

GREAT BATTLE OPENS.
(ASSOCIATED PRESS TELEGRAM) New York, Nov. 2.—The battle of the Tagliamento has been begun by the artillery. Guns of the Austro-German invaders of northern Italy have opened fire from the easterly side of the river upon General Cadorna's positions on the westerly bank of the stream, to which the Italian armies have effected a retreat during the ten days that have elapsed since their Isonzo front was broken.

Cadorna's artillery is replying. Rome announces today, and the struggle for the river line is on. Apparently the Teutonic attempt to force a crossing of the stream is not to be long delayed. The Italian statement announces the advance of Austro-German patrols from the main positions to the river bank. They were met there by Italian machine gun fire and repulsed.

Uncertainty exists, however, as to whether the Italian high command has planned a definite stand on the Tagliamento line or if merely a delaying action is intended to afford time for the preparation of a stronger line at the Isonzo, ten to fifteen miles farther west, or at the Piave.

REGULATE COTTON SEED.
Washington, Nov. 2.—Regulations to prevent hoarding and speculation in cotton seed and cotton seed products will be issued tomorrow by the food administration. Refiners, buyers, merchants, and growers were put under license November 1.

NO SALT SHORTAGE.
Washington, Nov. 2.—Reports of a shortage of salt in the United States were denounced today by the food administration. There is an abundance of salt, it is said, to meet every need.

THIRTY THOUSAND FOR WAR Y. M. C. A. FROM LICKING CO.

Campaign Fund Begins Nov. 13—
Leading Men to Make Canvass
For Funds.

Between the eleventh and eighteenth of November a nation wide drive will be made to raise a \$35,000,000 Y. M. C. A. war fund. Licking county's share is to be \$30,000. Of this sum the people of Newark are to be asked to give half and the people of Licking county outside of Newark are to be asked to contribute \$15,000.

Already Licking county has 600 boys in the service of the army and navy and every one of them will testify to the splendid service that the army Y. M. C. A. is rendering. In fact Y. M. C. A. army service is an absolute necessity.

An organization is now being perfected for a systematic quick campaign in this county beginning November 13th. A meeting of those who will conduct the campaign is to be held the previous evening at which time one or more men will be here from Camp Sherman to speak of the Y. M. C. A. work and the importance of continuing it on the present splendid scale.

Edwin C. Wright who headed the Red Cross campaign, is to be general chairman and the executive committee will consist of W. H. Mazey, John J. Carroll, A. R. Lindorf, Ralph S. Wyeth and C. H. Davis. Harry Scott is the secretary-treasurer and G. G. Barber campaign manager. Last night the following division chairmen for Newark were named: R. S. Wyeth, W. C. Metz, K. I. Dickerson, Carl Dayton, George Pickup, Fred C. Evans, George Hermann, Lawrence M. Krier. Each will have five teams of five men each making a force of 200 men.

The executive committee for Licking county outside of Newark consists of Roderic Jones, chairman; Rev. Lewis P. Franklin, George H. Mosser and Andrew S. Mitchell. A committee consisting of W. H. Mazey, Frank L. Johnson and Clay Van Voorhis was named last night to arrange a trip to Camp Sherman. The probable date is Thursday, Nov. 8. The trip may be made by automobiles or perhaps over the trolley line. There are about 300 Licking county boys at Camp Sherman at the present time.

It is well to keep in mind that we have not done our part to win this war till we have done ALL we can.

CONFIDENCE IN SLAVS IS SHOWN BY ANOTHER LOAN

(Continued from Page 1.)
The correspondent called attention to widely contradictory reports on Russian conditions and asked the premier for a frank statement of the facts.

"It has been said by travelers returning from England and elsewhere to America that opinion among the people, not officially but generally, is that Russia is virtually out of the war," he explained.

"Is Russia out of the war?" Premier Kerensky laughed. "That," he answered, "is a ridiculous question. Russia is taking an enormous part in the war. One has only to remember history. Russia began the war for the allies. While she was already fighting, England was only preparing and America was only observing."

"Russia at the beginning bore the whole brunt of the fighting, thereby saving Great Britain and France. People who say she is out of the war have short memories. We have fought since the beginning and they must now take the heaviest part of the burden on their shoulders."

"At present Russian public opinion is greatly agitated by the question: 'Where is the Great British fleet now that the German fleet is out in the Baltic?'"

"Russia," the premier repeated, "is worn out. She has been fighting one and a half years longer than England."

"Could an American army be of use if sent to Russia?"

"It would be impossible to send one," said Kerensky. "It is a question of transport. The difficulties are too great."

"If America cannot send troops, what would be the most useful way for her to help Russia?" he asked.

"Have her send boots, leather, iron and money," the premier added emphatically.

Premier Kerensky drew attention to the fact that Russia has fought her battles alone.

"Russia has fought alone—is fighting alone," Kerensky said. "France has had England to help her from the start and now America has come in."

The premier was asked regarding the morale of the Russian people and the Russian army. He answered: "The masses are worn out economically. The disorganized state of life in general has had a psychological effect on the people. They doubt the possibility of the attainment of their hopes."

"What is the lesson to the democracies of the world of the Russian revolution?"

"This," Premier Kerensky replied, "is for them to find out. They must not lose faith in the Russian revolution because it is not a political revolution but an economic one and a revolution of facts. The Russian revolution is only seven months old. No one has the right to feel disillusioned about it. It will take years to develop."

"In France, which is only as large as three Russian departments (states), it took five years for their revolution to develop fully."

Asked what he expected from the constituent assembly, the premier said:

"The constituent assembly begins a new chapter in the history of the revolution. Its voice certainly will be the most important factor in the future of Russia."

"What future do you picture for Russia after the war?"

"No one can draw any real picture of the future," Kerensky said. "Naturally a man who really loves his country will hope for all good things, but that is only his view point, which may or not be accepted by others."

Premier Kerensky, pale and earnest, sat at the end of a conference and emphasized the points of his statements by tapping the table vigorously with his fingers. He wore a brown undercoat uniform buttoned closely. He appeared to be fatigued from his many trips to the front and his constant audiences.

**TWO JURY CASES ARE
HEARD IN LOCAL COURT**

In the case of David Woolard vs. The Board of County Commissioners, the jury returned a verdict for the defendant. Plaintiff sued to recover damages on account of changing the grade of the Newark and Jacksonville pike in front of his premises, claiming that the water in the case of heavy rains overflowed his premises.

The court and jury on Friday were engaged in hearing the evidence in the case of John B. Hodges vs. Frank E. Gallagher. This is an action brought to recover upon an account for goods sold and delivered by plaintiff to the defendant at Johnstown. The suit grows out of the building of the Johnstown water works. A counter claim has been filed by the defendant.

CONVOY OF SHIPS IS MOST EFFECTIVE AS OFFENSIVE MEASURE

Race of the American Flotilla in British Waters, Oct. 16.—(Correspondent of the Associated Press)—Stories taken from captured U-boat commanders furnish documentary evidence that the destroyer is the most effective of present weapons against the submarines. "avoided destruction" is the oft-repeated entry in fact, these logs show conclusively that the submarines are having a hard time.

The result of the destroyer activity during the last four weeks has been not only a decrease in casualties of merchant ships, but also a still more satisfying increase in the number of submarines sunk.

The conveying of merchantmen has now reached a stage of considerable perfection, after many months work in training both the officers of merchant ships and the personnel of the patrol flotillas. While systematic conveying was undertaken primarily as a defensive measure, it has now developed into an offensive measure yet devised against the U-boat.

The offensive side of conveying may best be shown by an illustration. When a submarine tries to torpedo a convoyed ship—as submarines are now compelled to do, owing to the infrequency of unconvoyed shipping—there is always a destroyer on the scene, and the chances of her "getting" that particular submarine are correspondingly increased. The wake of a torpedo is generally seen by the destroyers' lookouts and it gives a good line on the direction where the submarine is lying. The destroyer immediately steers a course full-speed in the line shown by the torpedo's wake and drops repeated depth charges along this course.

In a considerable proportion of cases this proves effective for these depth charges cause serious commotion over a considerable radius.

The Associated Press correspondent was told of three cases during the last fortnight in which submarines were thus destroyed. In many instances, no doubt, submarines are destroyed without any visible indication above water of their loss. Still, others are badly crippled, as in the case of the damaged U-boat which was recently interned in Spain.

Another submarine which never returned to Germany was sunk under peculiar circumstances a short time ago. This U-boat torpedoed a ship bound from the United States. It is extremely unwise and unsafe to fire a torpedo at such close range, but the U-boats must take their targets as they get them these days. The torpedoed ship was loaded with a cargo of heavy war material, and the explosion was so forceful that it blew a large piece of heavy material through the deck of the ship and dropped it on the submarine as the latter was submerging. The hull of the submarine was crushed like an eggshell and she sank with all on board.

MOST OF SOLDIERS AT CAMP SHERMAN HAVE CAST BALLOTS

George H. Hamilton, clerk of the board of deputy state supervisors of elections for Licking county, and assistant clerk, John F. Maybald, returned late last night from Chillicothe where they secured the vote of the soldiers from Newark and Licking county at Camp Sherman.

Mr. Hamilton is out of the city and Mr. Maybald when interviewed today stated that they secured 227 out of 239 votes from Licking county, a number of the boys at Camp Sherman from Licking county having previously voted by mail and while on a furlough home.

Assistant Clerk Maybald said that practically every soldier from Newark voted. The election officials were assisted by Corporal Stewart Sedgewick, Private Victor Smith and John Sachs of this city and one of

Killed by Poisons
All scientists agree that poisonous products in the blood are eliminated by the kidneys and liver. The kidneys act as a kind of filter for these products. When the kidneys are changed or degenerated, by disease or old age, then these poisons are retained in the body. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y., says that you should drink plenty of water daily between meals to flush the kidneys. Then procure at your nearest drug store Anuric. This Anuric drives the uric acid out. Scientific men have learned that in gout, also rheumatism, poisonous uric acid crystals are deposited in or about the joints, in the muscles—where inflammation is set up.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. Anuric is many times more potent than lithia and dissolves uric acid as hot water does sugar.

"SALINEVILLE, OHIO.—"I have used Dr. Pierce's Anuric Tablets with good results for pain in back and sides, and would recommend them to anyone suffering with kidney trouble."—R. W. GOULD, Main Street.

COLUMBUS, OHIO.—"I have used Doctor Pierce's Pleasant Pellets and found in them one of the best remedies for biliousness and to regulate the bowels. I suffered untold agony with bilious attacks and tried many remedies, with little relief. I was told of Dr. Pierce's Pleasant Pellets and received the most speedy and lasting benefit I have ever found."—HENRY F. CHASE, 262 South Third St.

the commissioned officers of the battery. The vote was taken in the regimental Y. M. C. A. building at Camp Sherman.

Mr. Maybald in speaking of his arrival at Chillicothe late Tuesday night said that he accompanied Mr. Hamilton to one of the hotels in the Ross county capital and the best sleeping quarters they could secure was a cot on the top floor. When they retired they found fifteen other companions on cots in the same hallway. The gentlemen slept at the camp next night. They also took their meals with the boys from Licking.

"This War Will End When We Win"

declared War Secretary Baker last week, and almost on the same day, Lloyd George announced that he could "see no road to peace but in victory."

Without ignoring any of the shadows in the outlook, Allied observers are unanimous in their conviction that the Central Powers are cracking under the strain. In proof of this they point to the recent brilliantly successful French offensive on the Aisne front, when in one day's fighting General Petain's troops advanced two miles on a six-mile front, capturing 8,000 prisoners and 70 big guns; to the ceaseless methodical advance of the Ypres wedge by Haig's steam-roller tactics; to the heavy toll taken of Germany's naval forces by the Russian fleet in the Gulf of Riga battle, when fifteen German war-ships were put out of action; to the capture by the French of four super-Zeppelins in one day; to Germany's heavy withdrawal of troops from the Riga front to make possible an Austrian offensive against Italy; and to the ominous rumors of a growing spirit of mutiny in the German and Austrian fleets.

The leading article in this week's LITERARY DIGEST (November 3d), is a careful summing-up of the news from various quarters and its significance upon the outlook for peace through victory.

For City Solicitor

MR. VOTER:

Is it right to vote for, or against a man WHO HAS PROVEN HIMSELF to be a friend of the people?

Is it right to vote for, or against a man, who by experience and special study has qualified himself to fill the position of City Solicitor?

Your "X" will answer these questions on election day. I have heard it said at least four thousand times that a man should VOTE FOR THE MAN WHO IS FOR THE PEOPLE.

Are you, Mr. Voter, one of the 4,000 who will vote as you believe? Sure you are! and if you will speak to the man who lives or works next to you, MORE THAN 4,000 MEN WILL VOTE FOR

ASSOCIATED PRESS TELEGRAM
Camp Sherman, Chillicothe, O., Nov. 2.—Official word has come to Camp Sherman from Washington that selective draft soldiers here can dress in the very latest military creations when they go home on visits or get passed out of camp. They may buy tailored suits of the finest quality at their own expense just so long as there are no officers' decorations on them. These will be used for "dress up" clothes strictly, all men to wear regulation clothing when in camp.

Along with the information came word also that officers must have a regulation overcoat. It is optional regarding use of trench or short coats. It was announced too that enlisted men will be permitted to wear short top coats with fur and sheep lined collars, a coat that has become very popular at Camp Sherman.

It is apparent that efforts to make the men satisfied and to stimulate their enthusiasm are being made wherever possible, this being particularly evident in the granting of permission to "dress up."

Another new move to do away with wild reports circulated over the state has been made in the way of an instruction to company commanders to tell their men to be careful about making complaints, especially petty complaints, in letters to the folks back home. These, it has been found, many times have been misread or exaggerated with the result that army officials have been burdened with letters from parents about alleged mistreatment of men.

Food conservation has hit Camp in a mild way in the nature of an order forbidding use of veal, either at officers' or privates' messes. Strict observance of ration rules in serving food, especially sugar, is being observed in most units.

Water works, pipe lines and other parts of the water supply machinery of the camp today was turned over to the military by the construction forces as completed.

Catholics, unless on special or guard duty, are to be excused each Sunday morning hereafter between 6:35 and 8:35 o'clock so they can attend masses.

Colonel Earl Brown has arrived and is in charge of the 317th regiment of engineers, made up of negroes. The last negro officers were reporting today. The engineering regiment is to be filled to full strength and a battalion of field signal corps formed from negro draftees after which the overflow will go to the depot or training battalion. There are eight negro captains to report. These probably will command depot companies and a few signal engineering companies, which indicated that a number of white captains will be assigned to the regiment.

Johnny Kilbane, featherweight champion boxer, has started classes in boxing camp. Eight men from each company will be given lessons and these men will instruct units of sixteen men in the companies, so the whole army here will be at the padded mitt game, which is excellent instruction in connection with bayonet combat.

Word came today that a chorus of 100 voices from Huntington, W. Va., will be sent here at the expense of the Huntington Chamber of Commerce for a recital at the Central Y. M. C. A. auditorium Saturday afternoon.

Sheriff T. W. Beaver and three other officers from Beaver county, Pa., brought seventeen men here yesterday as deserters. Most of them are foreigners.

With the high cost of living what has become of the old matchmaker who used to contend that two can live as cheaply as one?

WRITER TELLS OF
SURRENDER OF BIG
TURKISH GARRISON

London, Oct. 17.—(Correspondence of The Associated Press.)—General Maude's victory at Ramadiah in Mesopotamia was the result of a battle of the old picturesque style, before the "war of inaction" swept the spectacular element out of modern warfare.

The movement which determined the whole action was the sudden swinging around of the British right until it became the left, and the encircling movement of the cavalry, which robbed the Turkish garrison of its last free line of retreat. The idea was admirably executed, but even the staff strategists of the British army scarcely anticipated the surrender of the whole Turkish force without a blow by the waiting cavalry.

The British "eye-witness," writing from Ramadiah, says in his account of the battle:

"We captured Ramadiah today, and with it the whole Turkish garrison, including its command, Ahmed Bey, and a number of field guns, pom-poms, machine guns and rifles."

"Our force moved in two columns on the night of September 27 from an advance camp on the Euphrates, west of Feinja, one column on the right, the other on the left, and at dawn they attacked Mushaid Ridge, a low line of dunes running north and south from the Euphrates to the Habbaniyah Canal."

"To clear the ridge and cross the canal was our first objective. The first knolls were quickly occupied. At dawn we bombarded the main crest of the ridge, but the Turks had evacuated it."

"We then changed our line of attack. The right column was withdrawn, and swinging round west behind the left column became the left wing of the force. Our front, three and a half miles in breadth, now lay between the Habbaniyah Canal on the right and Azkiyah Canal on the left, at a point nine miles from the Euphrates."

"Our cavalry made a wide sweeping movement across the desert round the right flank of the Turks and occupied a line five miles west of Ramadiah. By this move the Turks were cornered. Their only chance was to drive in determined counter-attacks and to break through before we drew the ring in closer."

"The expected attack began after three o'clock the next morning when the Turks tried to break through between the cavalry and the river. The action continued for two hours till dawn, when it degenerated into casual sniping. The nearest Turkish dead were found within fifty yards of the cavalry trenches."

"Soon after daybreak the infantry column took up the attack again, and carried the last outlying defences of the Turks on our left. An intense bombardment was opened on the Turkish trenches."

"Our line of cavalry, far away west, soon saw the dark masses of the enemy approaching, and apparently prepared for bloody battle. The Turkish guns were silent, and white flags went up all along the line. It was a general surrender. Ahmed Bey, the Turkish commander, who has been on the Euphrates all through the campaign from the battle of Shaiba, in March, 1915, and whose troops confronted us at Nassirah all last summer and autumn, came out and surrendered with his whole force."

VAIL'S DISCHARGE HELD
UP BY ARMY MEDICS.

A letter has been received from Hubert Vail, now a member of Co. A. M. P. at Camp Sheridan, Ala. Recently Mr. Vail was examined by the federal doctors at the camp and turned down, and was expecting his discharge. But the formal discharge has never been received and is probably being considered by the board. Mr. Vail does not expect to be discharged now, as his trouble is not considered serious.

INDEPENDENT CANDIDATE FOR MAYOR

ELMER W. JORDAN

"I stand for no one class against another, but for the general welfare of all."

MR. VOTER:

Do you realize that these are war times and that light political discussion and empty platitudes are not in order now.

Our city and every other city must economize and cannot afford a political machine.

Be patriotic and do your duty and we will trust the result. It is the patriotic duty of every citizen of Newark to go to the polls and vote.

First---For a Competent man for Mayor.

Second---For efficient City Government.

Third---For the good of our city.

It is no time to punish the citizen body as some suggest by electing an incompetent.

Every man behind the Independent candidate is unselfish in his desire to help Newark.

Save the good name of our city abroad among our neighbor cities.

Save your city from reckless Incompetence.

Vote for Jordan. He did not seek this candidacy. It sought him.

"OLD LICKING."

One of the gratifying results of the various Red Cross, Y. M. C. A. and Liberty loan campaigns that have been run during recent months is the development of a facility for co-operation on the part of the different groups and classes of the citizenship of our country.

City business man and farmer, professional man and rural merchant, doctors, preachers, teachers, Boy Scouts, men, women and children, all find that in working "shoulder-to-shoulder in a great common cause they are enriched by a new understanding of and greater respect for one another.

One of the outstanding examples of this sort of thing is the business-like manner in which many of the rural communities recognized and assumed their responsibility during the Liberty loan drive just closed.

The writer has in mind especially the people of Hanover township, who, in response to the call of the committee and under the leadership of Mr. S. A. Mears, gave what was perhaps the largest percentage of over-subscription of their quota of any of the districts of Licking county; having over-subscribed their quota more than 75 per cent.

It is said that the rural portion of our citizenship is slow in shouldering responsibility and this is doubtless true in some quarters, but the business farmer of this section is of a different type, and there are other sections of this county where the same spirit of patriotism was shown. In this connection the patriotic effort and the successful effort of the village bankers as well as the city bankers should be mentioned. The bankers, both large and small, not only recommended but urged their depositors to take their money out of the banks to buy government bonds. Altogether, the people of Licking have reason to be proud of the record made by this county thus far in the war. While some people have declined to do their duty the great majority have willingly assumed their responsibility as the success of the several campaigns will testify. More campaigns for war funds will follow, but Old Licking—and by that we mean both the city and the county—will do her full share.

THIRD TERMS.

Ohio voters have always been opposed to perpetuation of a man in office, feeling that two terms are quite enough, but a glance at the Republican city ticket here in Newark this fall shows that four of the candidates are seeking re-election to a third term. Mr. Dodd has served two terms as city auditor, Mr. Frye has been city treasurer for two terms, Dr. Keller has presided over the deliberations of the city council since August 3, 1914, and Mr. Knauer has been a city councilman for two terms.

The Democratic candidates for these positions in the order named are Clyde M. Hare, M. J. Reese, R. L. Williams, and for councilman-at-large, Daniel H. Alspach, Peter W. Faust and L. A. Stare. These men are all able and well qualified. Is

there any reason why one should be given a third term when his opponent is a clean, capable man?

Louis A. Stare, who is one of the three candidates at-large for membership of the city council on the Democratic ticket, was a member of the city council back in 1910-11, at which time one of the important matters before the council was consideration of the rate for natural gas. Every effort was made to secure an advance in rate, but Mr. Stare stood fast for an 18-cent rate and it was largely through his effort that the ordinance was passed. The result of that action is seen in the recent distribution of the \$165,000 gas escrow fund to the gas-consumers of Newark. Those who received gas checks the past few days are in a measure indebted to Mr. Stare for the part he took while a member of the city council. Mr. Stare is a candidate for election as a councilman-at-large, and the ballots will be cast next Tuesday.

Each voter will be handed six tickets next Tuesday, when he enters the voting booth—the municipal, judicial, on which will be found the names of the nine candidates for justice of the peace, township, school board, prohibition amendment, and woman suffrage. That ought to keep the voter busy for awhile. It will also keep the election officials busy after the polls are closed.

The returns from the various precincts over the city will be late in coming, in next Tuesday evening. There are six ballots to count and election officials must tabulate each one before taking or sending any returns to the board of deputy state supervisors of elections.

The same people who were kicking two months ago on taking the northern soldiers to the hot southern climate for training, are now kicking because the northern soldiers are being kept in the cold northern camps.

As usual, the Advocate will receive complete election returns from the city and county next Tuesday night. You are invited to come up and see just what is transpiring by reading The Advocate bulletins.

Having discovered by long and careful figuring that the war has cost their business \$7.85 to date, some people have concluded that we can't win this war and must make peace.

Having promised to grant popular rights to his subjects, Kaiser Bill now magnanimously permits the people freely to discuss the best methods of home-cooking.

Another time when the gas masks come in handy is when the folks are cooking one of those old-fashioned boiled dinners with odoriferous turnip and cabbage.

Still another standard method of camouflage is holding one of those large old-fashioned geography books in school to conceal the "History of Daredevil Dick."

The late Prof. Muensterberg had a scientific system of tests to determine if a man was fit for his job. It is not claimed that Kaiser Bill ever took it.

There are those who couldn't buy a 4 per cent Liberty bond, don't you know, because they really could make 4 1/2 per cent in their business.

Four men on the Republican city ticket are candidates for third terms. The third-term idea has never been popular with Ohio voters.

New York is anxiously looking over the candidates for mayor to see which will allow the easiest violations of the law.

Go to the polls next Tuesday, go early, then vote for Newark's best interests—vote for the whole Democratic ticket.

Remember that the polls, next Tuesday, will open at 5:30 a. m. and close at 5:30 p. m. Vote early.

The campaign for sugar economy is considered a menace to the basic necessities of life in the pie-belt.

MAKING IT DRY.

(Ohio State Journal.)
On the first of November 3000 saloons closed their doors in the state of New York. 700 in Chicago, and 300 in Washington City. And so it goes all over the country. Refusal to take out license and the high price of drinks contribute to this end. So the old liquor traffic is going by the board, and the way to help along that grand result is to vote for the dry amendment next Tuesday. If everybody who favored temperance would vote that way the saloon would go, and with it more than half the crime, the destitution, the vice, and the degrading indolence. What good citizen can delay this upward movement by helping to defeat the dry amendment?

IRELAND'S WORST ENEMIES.
(Pittsburgh Gazette Times.)
The worst enemies of home rule for Ireland are those radical sons of Erin whose actions prove their professed love for the homeland is but a phrase to cover hatred of England. Every step of progress toward realization of their dream of self-government is a signal for fresh demands and rebellious gestures. The debate in the House of Commons Tuesday night, which was precipitated by a motion "deprecating the government's Irish policy as tending to endanger the success of the Irish convention," revealed not only grounds for belief that an agreement in the convention is reasonably assured but that the "policy" it was sought to condemn by parliamentary vote is essential to prevent another Sinn Fein rebellion to the immediate advantage of Germany. Arrests made in the United States have developed proof of the connection between Sinn Feiners and German agents. The Kaiser's tools have deluded certain Irish elements to believe they can achieve complete severance of Ireland from Great Britain. To state the enterprise ought to be sufficient to condemn it as impossible of consummation. Whatever the future may hold for Ireland, and a sympathetic world hopes its miseries and agitations will be brought to an end with the early introduction of more agreeable conditions, independent sovereignty is out of the question. All intelligence in Ireland recognizes that, unless the Sinn Feiners unite with the other elements in promotion of such relief as the Irish Convention may agree upon they will delay the time when they can secure any.

ITALY'S DEFEAT.

(New York Times.)
Italy has been defeated for the same reason that the Russians were defeated in 1915, not because her men were not brave or her general ingenious, but because men cannot fight with their bare hands against artillery. When Italy asked for the raw material of warfare she was not asking a favor: she was asking something for the benefit of Italy, France, England, Russia and the United States. She should have got all she asked for, not as a favor to her, but as a means of winning the war, and she should have got it early. Because she did not get it she has failed to hold her gains when the whole strength of Germany and Austria was hurled against her. That strength could not have been hurled against her if Russia had stood firm, but the allies knew that Russia probably would not stand firm and should have prepared for that contingency. No doubt they have seen their fault lately and have been hastening to repair it, but they should make still more haste. Every help that can be given Italy should be given at once and without stint.

No Drafting of Aliens.
Continual talk is heard of the need of drafting the aliens in this country. If we do that the Mexicans and other Latin American nations will use the precedent and draft Americans when they happen to be in the other countries. Each time a revolutionist wants troops he will grab all the white men in sight. It is of no use for us to talk about

Our critical confrere of The Toledo Blade questions the philosophy that something may be said in favor of everything under the sun and expresses grave doubts of our ability to say anything complimentary about the seven-year-itch and we have been trying to find out more about the subject, so as to see if we can't but we are sorry to say that none of our friends seems to have it. —Ohio State Journal.

such a procedure; it would enable China, Japan, Siam and all other countries to do the same thing and it would make serious troubles and might lead to future wars. The Day of the Hog.
A Mecklenburg county farmer brought a hog to market yesterday and sold it to a local dealer for \$107.60. It was not an extra large hog, either. How much the butcher will make on it is a matter on which we have no data for calculation. With hogs in this class of aristocratic farm products, and cotton, corn and wheat all in demand at almost anything the farmer might ask for them, it would seem that the farmer is able to make liberal investments in Liberty loan bonds. —Charlotte Observer.

FIVE CABINET MEN ENDORSE SUFFRAGE IN NEW STATEMENTS

New York, Nov. 2.—Five members of President Wilson's cabinet endorsed women suffrage in statements made public here yesterday by Mrs. Norman de R. Whitehouse, chairman of the New York state women's suffrage party. Following are extracts from statements:

Josephus Daniels, secretary of the navy: "The mothers of men train their boys for citizens and if they are to be trusted with the early education and shaping of the character of the boys, is there any reason on earth why they should not be trusted with the ballot?"

Franklin K. Lane, secretary of the interior: "I see no reason to fear woman suffrage. It has not worked disaster in California. As a matter of political philosophy, suffrage cannot be put aside and as a matter of wise policy it is not to be denied."

Daniel F. Houston, secretary of agriculture: "The patriotism, self-control and intelligent action of women in the present emergency lend additional support to the argument and should dispel any doubts fair-minded men may have entertained as to the wisdom of enfranchising them."

William G. McAdoo, secretary of the treasury: "The time has come when suffrage should be given to the women of America. It should be given promptly; it should be given ungrudgingly; it should be given gladly. The women of the United States have in every way since this war has broken out, shown themselves qualified for the right of suffrage."

William C. Redfield, secretary of commerce: "I am an earnest believer in suffrage for women. There are large sections of our public affairs in which women—merely because they are women—are experts. The cause of education is one of these matters; another is the whole question of dealing with the liquor traffic in all its forms; so also are questions of child labor and of women in industry."

SINN FEINERS STONE YANKEE NAVY MEN IN STREETS OF CORK

Cork, Ireland, Oct. 18.—The Sinn Fein is keeping \$2,500 a week from the hands of the Cork merchants. That amount was spent each week for four months by American naval officers and sailors. It ceased when the Sinn Feiners began to attack the American bluejackets and it will not be resumed until the streets of Cork are again made safe for the Americans. At present no American below the rank of a destroyer commander may visit Cork without laying himself open to a general courtmartial. The same rule applies to the British naval forces.

Indignant over this loss of revenue, the tradesmen have urged Mayor Butterfield to use his good offices to have the ban lifted. The mayor is powerless in the face of the decision of the American and British naval authorities not to allow their men to visit Cork until they are absolutely certain that trouble will not follow.

The local newspapers publish the following letter from Richard Blair, head of the local business men's association:

"I suggest, in the interest of the business men, tax payers and hotel keepers of our city, who find it hard to carry on in these times, that the sailors of the United States navy be invited to come to the city as formerly before it is too late, and they are removed altogether to some foreign station, to be replaced by the sailors from other allied power not nearly so opulent as the United States of America."

Another appeal for the return of the American sailors is made by Miss Marie Lynch, who, as head of the "Poor League Guardians" made an official investigation of various charges which the Sinn Fein leaders brought against the American visitors. She says, in placing before the public the results of her investigation:

"Many wild stories, unproved by any specific facts, were spread throughout the city regarding the conduct of some American sailors. It was mentioned that the Cork Union could produce evidence to bear on the allegations. Upon investigation there I found there was not the slightest proof. I am quite aware that many good people were led by specious arguments to believe these wicked tales against the sailors, and were so deceived themselves. Now, it is a well known fact that the American navy, composition and organization, is one of the best in existence. Strict and constant supervision is exercised over every man by the officers in charge."

The Cork County Eagle in an editorial account of the anti-American demonstrations which preceded the American decision to put Cork out of bounds, says:

"Many strange things have happened in the city of Cork from time

to time, though none more discreditable than the wanton, blackguard attack made there on the sailors of the United States navy on Monday night. To the cries of 'up the Huns' hundreds of young men of the city, bearing a Sinn Fein flag in front, not only abused and jeered American sailors whom they chanced to meet, but displayed their hostility in more decided fashion, by stoning some unfortunate young men who had taken shelter from the rowdiness, and whose only offense that they wore the uniform of the American navy.

"What political wisdom could bring even the most brainless, thoughtless youth of Cork to insult the representatives of the great people which land has made welcome the oppressed from every clime. But in a particular special manner the exiles of Erin! Try to picture what America will think of their people, who, not content with their cries of 'Up the Huns' must emphasize that admiration by hunting, as if they were wild beasts, through the streets of their city, the men who are facing the deadly perils of the Atlantic that these wanton scoundrels, who attacked them on Monday night, might have American flour to keep them from starvation.

"The Cork republicans salute the greatest of the world's republics with paving stones! Let us at least, take this poor consolation to heart, we can never go lower than this exhibition of Monday evening."

SOLD NOTES; KEPT PROCEEDS IS CHARGE AGAINST TWO MEN

Columbus, Nov. 2.—Newton R. Wildman, president of N. R. Wildman company, Cleveland note brokers, and Louis F. Weinsz, treasurer of the company, were arrested in Cleveland yesterday by deputies from Sheriff Slack's office, on secret indictments returned at the last session of the grand jury, charging them with embezzling \$55,000 from a local manufacturing concern.

It is said that claims against them by other business concerns may run close to \$285,000.

According to the indictments, the two men made an agreement with officers of the Columbus firm, November 14, 1914, to sell at a discount and on commission, promissory notes of the company to the amount of \$55,000. They are alleged to have sold the notes at their face value and to have converted the entire amount to their own use prior to September 28, last.

PERISHING CHAUFFEUR GASSED
Hoboken, N. J., Nov. 2.—A cablegram stating that Eugene Maxson, with General Pershing's staff as chauffeur, had been gassed by a chlorine bomb dropped by a German airplane, was received here yesterday by his father. The message stated that Maxson was recovering slowly at a base hospital.

AMERICAN TROOPS QUIT TRENCHES WITH HEAVY MUD COATING

With the American Army in France, Nov. 2.—The first battalions of Americans in the trenches have been relieved by others. Relief, which is considered one of the critical periods when the enemy, by shelling approaches to the positions, may inflict heavy damage, was accomplished successfully. Apparently the enemy was not aware of what was going on.

With the men back in billets, it is now permitted to mention for the first time that the casualties were negligible. In fact, more men are suffering with "trench feet" than with wounds.

From a military standpoint the experience gained by the Americans is considered of a very high value in training to the contingents which are yet to arrive on French soil. It was a tired, dirty, wet, mud-caked body of men that returned to billets. The men had only two clear days while in the trenches. They were mud from their hats to their shoes. Before anything else, they required a bath, first with gasoline and then water. Today the sun was shining brightly and the returned soldiers spent most of the time sunning themselves and their belongings. Some of the fields in this section of France are covered with blankets, parts of uniforms and equipments. Clouds of red dust arose in these places when later the owners started to brush. Today the returned battalions are clean and ready to go back again.

LIEUT. HARDEN FIRST VICTIM.
Washington, Nov. 2.—First Lieutenant De Vere H. Harden, Signal Officers' Reserve corps, was the first American wounded after part of General Sibert's forces entered the trenches in France last week. Gen. Pershing reported to the war department yesterday that Lieut. Harden received a moderate shrapnel wound in his left leg October 28.

Press dispatches from American headquarters in France last week said the lieutenant was being treated at a base hospital. Lieut. Harden's next of kin is Mrs. Joseph Harden, Burlington, Vt.

TWINS BORN THREE DAYS APART
Alliance, O., Nov. 2.—Mrs. Annie Rampelt, aged 34, who gave birth to a six-pound girl at her home Monday, is the mother of twins, although she did not know it until yesterday morning. She was taken to a hospital here for an operation. The diagnosis of her case, which caused her removal to the hospital, was somewhat in error. The operation, in effect, turned out to be of the caesarian kind and a second daughter, weighing five pounds, was born.

"THE STORE WHERE QUALITY AND SERVICE COUNT"

FEAST FOR KIDDIES AT THE AUDITORIUM SATURDAY MORNING

All arrangements have been completed for the free matinee tomorrow morning at 9:30 o'clock at the Auditorium theater, when all the kids of the city, between the ages of 6 and 15, are invited to be the guests of Gus Atherton, who is known by practically every child in town as a friend of the youngsters, for Gus kept a news-stand for years and appreciated the services of the "newsies" whom he employed.

Is it any wonder then why the young men of the city are Gus Atherton's friends? He has dealt with hundreds of them during the years that he has been in business and all vote him a "prince of good fellows." Many a "newsy" who did not have the price for his papers could always rely on Gus giving him credit, and the boys always played square and settled their tabs. Hundreds of young men in business today started their business careers from the Atherton news-stand.

Gus Atherton is strong for the kiddies, that's why he has leased the Auditorium theater tomorrow and wants them to be his guests to see charming little Mary Pickford in a winsome playlet, "Helene of the North." Remember, all you need to do is to get up in time to be at the Auditorium theater at 9:30 o'clock and you will see the bright, smiling face of Manager Geo. M. Fenberg at the door and he will pass you in free of charge.

FIRST MOTORIZED BATTERY FORMED

Doubtless there will be many completely motorized batteries before the present war is ended, but the honor of being first goes to Battery C, 5th F. A., commanded by Capt. W. H. Capron, and formed at Fort Sill, Oklahoma.

A battery consists of four guns with their limbers and six caissons with their limbers, six ammunition trucks, a store truck and a machine shop or repair truck. In the case of guns of smaller caliber a tractor will haul a section of artillery which consists of a caisson and its limber and a gun and its limber. Much shorter poles are used than with horses, the end of the pole being provided with a lunet or eye, making the coupling for the tractor. Each tractor pulls a load of about nine tons.

The vehicle used are the six trucks, the Holt 45 h. p. caterpillar tractor and a Dodge Brothers touring car.

The entire brigade as proposed by the war department will be composed of three regiments having a maximum strength of 3685 officers and men. It will have 72 guns and 108 caissons. To keep this equipment working will require 108 ammunition trucks, 27 store trucks, 90 tractors, nine repair trucks, 21 repair cars, nine passenger trucks, nine tank trucks and 37 supply trucks, all motor-driven. In addition to these vehicles, the brigade has 297 motorcycles with side cars and 30 reel carts.

"The work of motorizing field artillery is being pushed ahead in an aggressive manner by the ordnance department at Washington," says Timken Magazine.

"The knowledge of the best trained regular army officers is being combined with that of automotive engineers of generally recognized standards. The engineering staff of the ordnance department is being supplemented, and for the time being at least the services of the men of first-class engineering ability and proper experience are being enlisted. Good men are needed in this highly attractive form of government service, and those desiring to enlist should get in touch with Coker F. Clarkson, secretary of the advisory commission of the Council of the National Defense, Washington, D. C. If you have the desire and the ability, here is a chance to serve your country."

YOUR HEATING PROBLEM SOLVED

SMOKE CONSUMER JUST INSTALLED IN THE ARCADE

Under the supervision of Mr. Charles C. Iden, chief engineer of the Newark greenhouses, a Hamilton smoke consumer has just been installed at the Arcade heating plant. The work of installation and testing has been in progress for several weeks, but Mr. Iden announced today that the work is now complete and that the apparatus is doing all that the manufacturers claim for it.

The principal advantages claimed are the conservation of fuel and the elimination of smoke. It is said that the fuel saving ranges from 18 to 25 per cent and that the smoke nuisance is wholly abated. To be sure a very little smoke pours out of the stack for a moment after a heavy "fire" is put on in the boiler, but almost instantly the cloud of smoke disappears and in its place is seen a tiny bit of vapor showing that the coal gases are entirely consumed and that all of the fuel has been turned into heat.

The principle of the system is simple. Instead of letting the smoke carry into the air a large part of the carbon, by means of a suction fan, operated by a one-horse power electric motor, hot air is driven over the fire which holds the gaseous vapors until complete combustion takes place. No natural draft is allowed. During a demonstration made yesterday afternoon the suction fan was turned off and on at intervals to show what the conditions were both with and without its use.

The smokeless fuel economizer system furnishes the fire with highly heated air, by bringing fresh air down inside of the stack, through an inner tube, which robs the escaping fuel gases of its heat (which otherwise goes to waste). This tube is also opened to the out-rushing flue gases, and regulated by a damper, and takes that part of the waste gases which are combustible, and returns the mixture back to the fire at a very high temperature, thereby saving a large number of heating units.

The purpose of the smokeless fuel economizer is fourfold, although there are other benefits which result from its use. The first benefit derived is that the fuel consumption is reduced. The second benefit is that of increasing boiler capacity with less fuel. The third reason is the absolutely smokeless condition of the stack. The fourth reason is the positive absence of soot escaping from the stack, thereby overcoming any annoyance or damage to neighbors' property.

The apparatus not only eliminates smoke but to a very great degree soot also. This is the first smoke consumer installed in Newark. One was recently placed in a Columbus factory while several have been installed in Springfield and Dayton. The engineer of the Arcade, Mr. W. G. McKean, is pleased with the new apparatus and says that he is able to operate the plant now with one boiler where before he used two 50-horse power boilers. The Arcade

GERMANY SHOWS MANY SUBSTITUTES FOR FOOD

Amsterdam, Oct. 17.—Substitutes for textiles and food stuffs constituted an important feature of the recent autumn fair at Leipzig, Germany, according to the Schliessche Zeitung.

"The food stuff industry shown at the fair which might be better described as a 'substitutes industry' still is in the development stage," says the paper. "but it already has given such strong proofs of the justification of its existence that it deserves the greatest encouragement on the part of the authorities. The true value of the substitutes for tea, coffee, oil, tobacco, soap, flannels, napkins, aprons, hat ribbons and even petticoats, for the manufacture of which paper had been chiefly employed, from similar articles made of the real material."

"The general characteristic of the Seventh War Fair was the want of goods. This was due to dearth of raw materials and shortage of labor. heating system extends from Third to Fourth streets and from Church to Main streets, taking in the Arcade, the Arcade hotel and half of the Union block.

OHIO SUFFRAGISTS CONDEMN ACTION OF CAPITAL PICKETS

At the annual convention of the Ohio Women Suffrage Association held in Dayton last week the letter which the president, Mrs. Upton sent last summer to President Wilson on the subject of the Washington pickets was formally endorsed through the adoption of a resolution presented by Miss Edith Weld Peck of Cincinnati. This letter was published throughout the state at the time and in connecting upon the Cleveland Press said, in part: "President Harriet Taylor Upton, speaking for the Ohio Woman Suffrage Association, in a letter to President Wilson says: 'Members of the Ohio Suffrage Association deplore the action of the women, who through the past months of national anxiety have picketed the White House and Capitol, thereby attempting to convey the idea that you are our enemy, not our friend. 'Militant methods generally are not approved by us and, when used in times of war, they appear as little short of treason.'"

Mrs. Upton has used the right word. Treason it is. Such tactics are not calculated to help but to hinder the business of winning the war. * * * Mrs. Upton's letter makes it plain that this treason belongs to a small group acting without authority or approval from the great body of woman suffragists throughout the land. "The Washington militants have no connection, direct or indirect with the Woman Suffrage party in Ohio."

EVEN HOLLAND HAS ITS CONSCIENTIOUS OBJECTORS

Amsterdam, Netherlands, Oct. 15.—Although Holland is not at war it has its conscientious objectors, and the problem which they constitute may be brought more prominently before the Netherlands Parliament in the coming session. An instance is related of a struggle between a party of soldiers and an objector, who refused to change his civilian for his military clothes. In the end the man sat naked in his cell for a day and a night, and was transferred from one prison to the other in like condition. Men who have refused to do military duty in the Netherlands now number 150. Some proved not strong physically to endure imprisonment. The will of others was broken, and they were induced to take service. Others persisted in their attitude despite repeated sentences of months of imprisonment.

A GREAT CHANGE ENTERS INTO LIFE OF STOREKEEPER

A certain unassuming gentleman in this city who happens to be a prominent dealer, and who up to a few weeks ago had become a recluse because of his physical condition, tells this remarkable and most interesting tale:
"For a number of years," he said, "I have been so closely confined to my business working zealously to make my store representative in every respect that wear and tear finally got me, my face became drawn and haggard and my disposition seemed to urge people to evade me. It was then that I began to despise my own company. My bookkeeper, who has been with me a long time, one day suggested that I needed a rest and that my nerves required attention. She told me that her father had been in the state of health which I was experiencing and that he had taken Phosphated Iron. 'Look at him now,' she said. 'He works ten hours a day and appears to be the happiest man in the world, which he believes is, he says.'"
"All this happened less than a month ago. I followed the advice and took at me now. Back in the harness with a smile all the while. I am feeling more fit than ever. When I see a tired-looking face the name of Phosphated Iron immediately comes in my mind. I am convinced that it is converting many a worn-out body into a life rich in thought, ambition and enthusiasm."
Special Notice—To insure physicians and patients receiving the genuine Phosphated Iron we have put up in capsules only, so do not allow dealers to substitute pills or tablets, insist on the genuine in capsules only.

RID STOMACH OF GASES, SOURNESS AND INDIGESTION

"Pape's Diapiesin" Relieves Stomach Distress in Five Minutes.
You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one. Your stomach is too valuable. You mustn't injure it with drastic drugs. Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its quick relief in indigestion, dyspepsia and gastritis when caused by acidity has made it famous the world over.
Keep this wonderful stomach sweetener in your home—keep it handy—get a large fifty-cent case from a drug store and then if anything should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it.

SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.
When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it can not cause injury. No difference what ails your little one—it full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.
Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup. (Adv.)

SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.
When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it can not cause injury. No difference what ails your little one—it full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.
Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup. (Adv.)

PROHIBITION Prohibits manufacture and sale of beer, wines or other liquors.
BONE-DRY Makes it a federal crime for a citizen in a prohibition state to bring into it, or have brought in for him, even for his own use, one single drink of beer, wine or other liquors.
These are not separate propositions. No state can adopt prohibition of manufacture or sale and save to its citizens the right to bring into it any kind of liquor for private, personal use.
When a state adopts prohibition the federal government steps in and makes it bone dry. The Reed bone-dry law is now in force in every prohibition state in the union. Read it:

The Reed Bone-Dry Law
"Whoever shall order, purchase, or cause intoxicating liquors to be transported * * * into any state or territory, the laws of which * * * prohibit the manufacture or sale therein of intoxicating liquors shall be * * * fined not more than \$1,000 or imprisoned not more than six months, or both, and for any subsequent offense shall be imprisoned not more than one year."

Citizens of prohibition states thus drastically ruled by the Reed law were not asked if they wanted it. They had voted to suppress public drinking places only. Now they find that they themselves are opposed.

Were Ohio to vote for prohibition of manufacture or sale its people would, automatically, find themselves similarly ensnared. Bone-dry prohibition means sacrificing rights the individual has enjoyed since the world began.

"The enactment of the Reed bone-dry law was the greatest invasion of private rights ever perpetrated under a republican form of government."

Temperate men have said that. Thinkers look with trepidation upon such radical departure from American ideals.

Some prohibitionist members of Congress voted against the Reed law—they said that they stood for prohibition but they would not vote for the abolition of the limited personal use privilege.

SHOULD OHIO, OF ALL STATES, GIVE TO THAT KIND OF LEGISLATION THE STAMP OF APPROVAL?

Near bone-dry was tried on the people of Ohio in 1913. It was called the Anti-Shipping Bill and was designed to make near bone-dry all districts which had voted "dry" under local option. The temperate men of Ohio rejected this attempted invasion of their private rights by nearly 100,000 majority.

They would not surrender the privilege of hospitality in their homes, in their clubs, at their banquets and other social gatherings.

Do the promoters of prohibition hope to dupe the voters of Ohio this year?

Do they think the voters will reverse the verdict they rendered on the Anti-Shipping Bill in the belief they are merely voting to wipe out public drinking places?

Prohibition and bone-dry go hand in hand. They can not be separated. THE FEDERAL "bone-dry" law has made them one. THE RIGHTS OF THE HOME, OF THE CLUB, OF THE INDIVIDUAL—ALL MUST GO DOWN WITH THE PUBLIC SALOON.

Bone-dry makes it a federal crime to bring beer, wine or other liquor into Ohio in any quantity, in any manner.

Bone-dry makes it a federal crime for a citizen to even place an order for shipment with a liquor dealer in another state.

Bone-dry makes a potential criminal of the Ohio citizen who even desires a social drink.

BONE-DRY MEANS AN ARMY OF PAID "INFORMERS."

Bone-dry means the prying dry detective world meet trains at the state line, automobiles at the state line, vessels at Lake Erie ports, boats at Ohio river landings, and search not only baggage but the person to ascertain if any intoxicating beverage be concealed. Innocent and guilty alike would have to submit to the indignity of search by representatives of a new department of government the activities of which would soon become a public shame.

Bone-dry would mean invasion of homes placed under suspicion by some "informers."

Bone-dry would inspire prying into the house of the farmer who turns his apples into hard cider.

Bone-dry would bring "informers" to the wine press of the grape grower desiring to make a beverage for himself and his own family.

Bone-dry is not aimed at the public drinking-place, for bone-dry applies only to prohibition states in which there is no such place.

Bone-dry is aimed at the private citizen in a dry state—it punishes the private citizen in a dry state—bone-dry destroys the rights of the private citizen in a dry state.

Is it expected that sane, temperate men will vote upon themselves such intolerable law?

Bone-dry treats the home as if it were a public saloon.

Bone-dry law befits only a drunken people.

RED CROSS WILL SEND CHRISTMAS PACKET TO EACH SOLDIER AND SAILOR IN SERVICE

The main features of the War Council's Christmas plans for soldiers and sailors will be the distribution of about a million Christmas packets and the erection of a Red Cross Christmas tree at each cantonment. Newark chapter is asked to do its share toward making these packets. The chapter is appealing to the loyal women to aid in the preparation of these packets.

By Christmas there will be a large number of men in France, and 600,000 in the cantonments at home, besides the thousands in the regular army posts and in the navy, and everyone will be eager to help in giving them Christmas cheer.

No matter how generous a supply of gifts some of the men may receive from families and friends, it is believed that all Red Cross members will want to unite in sending to each man a Christmas packet filled with good things and good will. In order that the men may be equally remembered and yet that there may be a pleasing variety in the packets, the following suggestions are made for preparing and assembling the Christmas parcels:

Nothing should go in them which will not keep fresh from the time of packing until Christmas.

Dried fruits and other food products should be packed in small tin or wooden boxes, one-quarter to one-half pound size.

Hard candy, including chocolate, would probably be safe in tin foil or heavy cardboard, but no soft chocolates nor anything that could possibly be crushed should be used, as the remaining contents of the package might be spoiled thereby. Several dainties packed in oblong tin boxes holding each a quarter of a pound, will provide a better variety for a packet than a larger quantity of a single confection.

No liquids nor articles packed in glass should be placed in the packages.

For wrapping the gifts use a khaki-colored handkerchief, 27 inches square, and form the base of the packet by placing on the center of the handkerchief a pad of writing paper about 7 by 10 inches.

Select a variety of articles either from the suggested list (or accord-

ing to individual wishes) to an amount not exceeding \$1.50, and arrange them on the pad of paper so that the entire package shall be the width of the pad and approximately five or six inches high.

Wrap and tie with one-inch red ribbon and place a Christmas card under the bow of the ribbon. A card bearing the greetings of the sender or the chapter would be desirable.

Wrap the parcel again in heavy, light-brown Manila paper, tie securely with red, green, or gilt cord, and use Christmas labels or American flags as desired.

List of articles suggested for Christmas packets: Khaki-colored handkerchief, 27 inches square, for container; writing paper pad, about 7 by 10 inches; envelopes; pencil; postals; book (in paper cover); scrapbook, home-made, containing a good short story, some jokes, etc.; knife, such as boy scouts use; mirror, steel; handkerchiefs, khaki-colored; neckties; mouth organ; electric torch; compass; playing cards; mechanical puzzles (an assortment lot of 12 small mechanical puzzles can be bought at the rate of 12 for 50 cents); Red Cross checker-board (this is a combination set of checkerboard, checkers, chessmen and dominoes made of heavy cardboard especially for the Red Cross and can be purchased after October 15th for 5c apiece); other games; tobacco; pipe and pipe cleaners; water-tight match-box; chewing gum; fruited, chocolate, and other sweetened crackers, in original packages; fruit cake; preserved ginger; salted nuts; prunes; figs; dates; raisins; hard candy; chocolate in tin foil; licorice.

It is expected that money for the Christmas packages will be raised by chapters through contributions by individuals for this specific purpose.

The local chapter has been asked to send as many as possible of these packets by the first week in November so that they may reach the boys in France before Christmas. Those for the cantonments on this side may follow a little later. Please leave packets at Red Cross headquarters any afternoon or Saturday morning. Let us see if Licking county can send as many packets as it has soldiers in the service.

CORNMEAL BREADS AND PUDDINGS ARE PALATABLE AND NOURISHING; TRY THEM

In the nation's appeal for food conservation the housewives are asked to again adopt as war time foods corn and corn products that were originally the staple foods of the early settlers of this country. The housewife who does in exhibiting a two-fold patriotism since Indian corn and its by-products are an essentially American food.

Here are a few tested recipes for corn meal foods that are sure to tempt the appetite of the most fastidious. Try them on your gas range:

Southern Corn Bread—2 c. cornmeal, 1 1/2 c. thick sour milk, 5-4 t. soda, 1 t. salt, 1 egg, 3 t. melted droppings.

Beat egg in a mixing bowl, add milk, sift in meal with soda and salt and added melted fat. Beat quickly until well mixed, pour into hot well greased pans and bake in a moderate oven. Cut in squares and serve hot. Egg may be omitted. If sweetened corn bread is preferred, use yellow cornmeal and add 3 table-spoons of sugar.

Indian Pudding—1 qt. milk, 1 c. cornmeal, 3-4 c. currants or raisins, 1 c. chopped suet, 1-2 t. salt, 1 t. cinnamon, 1-2 c. flour, 1 t. baking-powder, 1-3 c. molasses.

Make a smooth mush with milk and cornmeal. Then add currants, suet, and sifted dry ingredients. Mix thoroughly. Turn into greased molds and steam 3 hours.

Cornmeal Souffle—1-2 cup of yellow cornmeal, 1 pint milk, 1 lb. butter, 1 t. salt, 3 eggs, 1-4 t. paprika, 2 t. grated cheese, speck pepper.

Heat the milk to the boiling point,

then add the butter and salt, and gradually sift into this the cornmeal. Cook until the consistency of mush; remove from the fire and whip in the well beaten yolks of the eggs, cook a minute longer, and when almost cool fold in the stiffly beaten whites of the eggs. Add paprika, pepper, and grated cheese and put all in a buttered baking dish. Set the baking dish in another dish of hot water, in a moderate oven and bake 30 minutes.

Cornmeal and Wheat Waffles—1 1/2 c. water, 1-2 c. cornmeal, 1 1/2 c. milk, 3 t. sugar, 1-4 t. baking powder, 1-2 t. salt, yolks of 2 eggs, whites of 2 eggs, 2 t. melted fat.

Cook the meal in boiling water 20 minutes. Add milk, dry ingredients mixed and sifted, yolks of 3 eggs well beaten, fats and whites of eggs well beaten, cook on a greased waffle iron.

Cornmeal and Rice Waffles—1-2 c. cornmeal, 1-2 c. flour, 1 c. boiled rice, 2 eggs well beaten, 1 t. melted fat, 1-2 t. soda, 1 t. salt, 1 c. sour milk.

Sift together the flour, soda and salt. Add the ingredients and beat thoroughly.

The State War Board Today Says

The State War Board says today: Have you signed the food pledge card, Mrs. Housewife?

If not you have two more days to do it.

The grand drive to enroll 20,000,000 American households in the program of the U. S. Food Administration for food conservation closes tomorrow.

Millions have already enlisted. There are no exemptions. If your name is not on the roll, it should be. Remember, signing the card involves no obligation other than this: That you agree to co-operate to the best of your ability in saving food. There are no dues or other fees. You are not asked to deprive yourself of food but to use substitute for the war foods such as wheat, meat, and dairy products.

What you save and what you serve will help turn the scale against Kaiserism.

Sign the pledge card and follow the advice of the Food Administration.

HOW TO USE LEFT-OVERS. Left-overs of meat or poultry may be utilized to make this dainty dinner dish: Empty the contents of a 5-cent package of spaghetti into two quarts of boiling, salted water (many housewives add a little pepper); boil 12 to 15 minutes to suit taste, stirring occasionally with a fork to prevent sticking. Be sure the water is boiling rapidly and do not let it stop boiling. If necessary to add more water, have it boiling. When done, put in a colander and drain.

Dress this with butter and grated cheese, then work into this two eggs. Butter and bread-crumbs a plain mold and when the spaghetti is nearly cold, fill the mold with it, pressing it well down and leaving a hollow in the center in which place a well-flavored mince of meat, poultry or game; then fill the mold with more spaghetti, pressed down well. Bake in moderate oven 20 minutes, turn out and serve with cream or tomato sauce.

AMUSEMENTS

ALHAMBRA.

Tonight and Tomorrow.
Two stirring, thrilling ring battles with Wm. Russell, the athletic star, in the role of professional pugilist.
The ringside with its wide variety of types—the preparation for battle and the dressing room scene afterwar.
"Big Bill" Russell as a prize fighter.
Dainty Francesca Billington as the daughter of a rich and doting father.

Sunday.

Douglas Fairbanks gets into all kinds of trouble in "Double Trouble," a Triangle comedy which will amuse patrons of the Alhambra theater next Sunday. But all the troubles of Fairbanks will only add to the enjoyment and interest of the play. Fairbanks is a good young banker who is principally in demand by the old ladies of his church to fill the vacancy of the Sabbath Day Society. Then he goes away for a vacation.

AUDITORIUM.

Paying the War Tax Cheerfully.
Scanning the advance sale of seats for the coming engagement of "Mutt and Jeff Divorced" at the Auditorium Saturday afternoon and evening, Geo. Fenberg, manager of this theater, found that the sale is large and that the war tax will not seem to effect it at all and that the purchasers paid the extra amounts to meet the government's demand with much pleasure.

"There is one conclusion that I can reach," Fenberg said after he had checked up the sale for this attraction last evening, "and that is that the war tax will not affect the road shows as those who so far have bought seats are showing their patriotism by paying the war tax without a murmur." Regarding the effect on the picture business, when asked this question, he said, "I cannot answer that question just at present, for we were very badly handicapped yesterday in the fact that two features booked, 'The Lone Wolf' and Norma Talmadge in 'The Law of Compensation' failed to arrive, so I hurriedly arranged with Columbus to send me a show and only charged 5 cents, with the added fact that the theater they couldn't kick on the value of the show given at that price."

Mutt and Jeff.

Popular play-going interest locally is storming the box office at the Auditorium with reservation desires for places for the newest, biggest and best of all the Bud Fisher comic cartoon comedies with music, "Mutt and Jeff's Divorce," announced for presentation for two performances Saturday.

Nothing approaching the rapidity of action, variety of tone and color,

"Mutt and Jeff Divorced," at Auditorium Saturday.

tunefulness of score, or hypnotism of dance numbers with which the new piece is said to abound, has ever before, it is averred, graced the musical comedy stage. The new piece, which the world knows are even now in their cartoon manifests making war mad kings laugh amid all their troubles. Also said all the world knows in print and on the stage, the immortal pair have made the masses throughout the world roar.

"The Yankee Way."

For Sunday amusement seekers the Auditorium offers smile-a-minute Geo. Walsh, who is seen in the Wm. Fox production "The Yankee Way." The scene of this play is the Balkans. Now that a bunch of spots on the earth's surface which has been a pretty lively place during the last five or six years, but it never knew what speed was until George Walsh goes over to manage Dad's cattle range.

Before the inhabitants got wise to what was happening a consequential sort of count down, he is shipped out of the country by night in a side door Pullman; an infant revolution is snatched, and George sets sail for the good old U. S. A. with the nation's pet princess as his bride.

This feature fits George to a T and we might say it begins with a good old Yankee scrap; it ends with one and there are several thrown in. Aside from the pep and speed in this drama, aside from its fascinating story of George's smile and snappy way of doing things, you will enjoy the work of the master cast, whose members are such players as Joe Dowling, Enid Markey, Chas. Elder and Ed Sedgwick. In addition to this feature, a two reel Fox comedy, "Tom and Jerry with Terry Mix and a bunch of fun makers. The orchestra will render latest selections.

Auditorium Notes.

Julian Eltinge, who made his bow to Newark picture fans this week, is to be seen in his second feature, soon called "The Clever Mrs. Carfax."

Under the title of "Under the Stars and Stripes in France" is the name of a feature in the next feature. This feature is said to be the first complete record of American soldiers abroad. How they are trained, with artillery, small arms, rifle and bomb throwing practice are all to be shown. A most interesting portion of the picture is said to be that showing a grand review of the Americans. It was on a large plain and it is with genuine satisfaction that we note that Uncle Sam has many thousands of men already across the water.

The Pathe News, that is to be shown today at the Auditorium, is the latest of the current war events. The war section is most interesting.

The Auditorium today may possibly show in addition to the other reels that were shown yesterday and held over, a Marquette Clark picture, "Still Water."

IF YOU ARE A DRINKING MAN

You had better stop at once or you'll lose your job. Every line of business is closing its doors to "Drinking" men. It may be your turn next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry. We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

When you stop "Drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Cost only \$1.00 a box. We have an interesting booklet about ORRINE that we are giving away free on request. Call your store and talk it over.

PUBLIC KITCHENS IN

GERMANY HELP SAVE FOOD

Amsterdam, Oct. 17.—The public kitchens established throughout the German empire since the beginning of the war would now be able to supply food for about one-fourth of the population, according to a statement published by the German war office. It would appear from this statement that there was 2200 such establishments in the Empire and that their ordinary capacity amounted to the production in a recent month of 2,500,000 quarts of food.

There are in the German empire 563 communes having 10,000 or more inhabitants each. Only about 50 of these now are without public kitchens. The majority of towns report establishments providing mid-day dinners only, although all the kitchens are equipped for supplying at least two meals daily.

In Berlin there are now 66 public kitchens. The number of persons who obtain food from them fluctuates in remarkable manner. In recent weeks the number of participants has averaged about 170,000 daily.

ters," a circus story, said to be full of interesting sawdust stuff.

Tom Wilson makes his first appearance in "The Yankee Way" at the Auditorium Sunday with George Walsh. He is still marvelling at the athletic star's prowess. Wilson at one time was an all around boxer.

Manager Fenberg was compelled to disappoint his patrons yesterday, a but through no fault of his. Disappointed in two pictures in one day is enough to drive anyone insane, but he came through O. K. Called up Columbus and gave his patrons a show.

Today at the Auditorium those who turn out will see a variety of films, for the management will hold over the five reel show sent in from the Victor Exchange at Columbus and in the meanwhile has arranged to have the Paramount Exchange at Cincinnati send

another picture—both features will be seen, all for the one price of admission.

Norma Talmadge in "The Law of Compensation" also "The Lone Wolf" both went astray between Cincinnati and Newark.

WOMEN OUTNUMBER MEN.

(ASSOCIATED PRESS TELEGRAM)

Sydney, Australia, Sept. 29.—The recently completed "Census of Wealth" in Australia shows that the country's net assets are equal to \$1,675 per head of the population. The migration returns show a loss of 279,000 males since the war began, and white women now outnumber the men by 85,000.

SEATTLE, U. S. A.

Edwin Selvin
Editor and Publisher.

Feb. 12, 1917

Mr. G. G. Barber,
301 Trust Bldg.,
Newark, Ohio.

Dear Sir:—

In reply to your favor of the 3rd, asking my opinion on the benefits of the "Dry" law. My opinion is most completely expressed in the issue of Dec. 30 of Business Chronicle, which goes into the situation rather extensively, and a copy of which I am having mailed to you. I am also having a copy of the issue of Dec. 24, which tells of my purpose in taking the matter up in the following issue. I am having a copy of the current issue mailed to you also.

Very truly yours,
EDWIN SELVIN.

(Signed)

Copy of Editorial Referred to Above Which Appeared in the Dec. 30th issue of the "Business Chronicle," 1916.

"TRUTH ABOUT SEATTLE BUSINESS CONDITIONS"

"Seattle, occupying the unique position of being the largest city in U. S. to be placed under a 'dry' law, has, because of that position, become the most maligned city in this nation. Since the dry law became effective Jan. 1, 1916, Seattle has been pointed to as a horrible example of the effects of prohibition. In every section of the country where the liquor issue was fought out in 1916, mendacious and avaricious newspapers, at the strong urge of full-page anti-prohibition advertisements, willingly perjured themselves in describing the ill from which business in Seattle suffered. Something akin to a plague had fallen on a thriving community. A general exodus of inhabitants was under way. Blocks of buildings were vacant. Business was at a standstill. The city had sunk to the depths of poverty and crime. Alleged Seattle citizens, eastward on business, were 'interviewed,' and the 'interviews,'—pure fakes in many instances—were printed as corroborative evidence of defamatory assertions. Other newspapers, reputable, but ignorant of the true situation, reprinted the slander. It is time the nation should know what the real situation is out here. Lacking a day, a year has passed since the dry law became effective. During that year the city has gained in population. Building occupancy is greater than ever. Bank deposits have increased. New industries have sprung up. More tourists have visited Seattle. The amount of taxes to be raised on this year's valuation is less than a year ago. Delinquent taxes have been reduced. Bank clearings and transactions are greater than last year. Postoffice receipts are larger. Pay rolls have been increased. Savings institutions have opened more new accounts and received a greater aggregate of small sums from workmen than in any other year. Merchants have sold more and better goods, and collections have been vastly improved. Bond dealers find a new class of investors, and have had the best year ever experienced. Mortgage money is more plentiful in supply than in demand. Seattle today is sounder and more prosperous than ever. Business Chronicle presents the proofs in this issue."

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCLAIR, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

RHEUMATISM IS A WEATHER PROPHET

More Prevalent Than for Many Years—Sudden Changes of Temperature an Immediate Cause.

When rheumatism attacks on an individual, he generally knows what the trouble is. The inflammation, soreness, pain, swelling, joints and backache, with loss of appetite, plainly indicate rheumatism. Physicians differ as to the cause, but all agree that rheumatism is caused by poison getting into the system. Cold and moisture, with sudden changes of temperature, cause aggravated attacks and intense suffering. The first twinge of pain or stiffness of muscles demands quick action. Don't suffer a minute; get from T. J. Evans or any druggist a bottle of Rheum-Aid. It's a great rheumatoid prescription which gives relief in all forms of rheumatism. It brings swollen joints down to normal, reduces the pain, and restores the whole system with out the least injury to the heart. This two weeks' treatment is inexpensive and your money will be returned if it does not get the joyful relief anticipated. Advertisement

CAMP SHERMAN NOTES

(Associated Press Telegram)
Camp Sherman, Chillicothe, Nov. 2.—Women in the industrial plants of Chillicothe, inspired by the activities in connection with Camp Sherman have organized to serve Uncle Sam. They have pledged to "do better than ever before whatever work they have to do." The work in Chillicothe factories is important work to Uncle Sam, canning, harness-making, and the manufacture of shoes and cigars being of special importance.

The industrial women's organization is known as the Patriotic League and it has branches in all of the factories. Several hundred girls have enrolled. Besides the daily contribution that they make to the government in doing the "daws work" well, they also band together by divisions in the evening and manufacture for the Red Cross—make trench candles and so forth. The officers' wives from Camp Sherman are taking a keen interest in the organization and are helping equip club rooms for the girls. Classes will be formed for the purpose of instruction in Red Cross work.

An "open" house is to be conducted each Sunday afternoon, where opportunity for social expression and the entertainment of men on leave is contemplated and things to eat will not be forgotten. High school girls, clerks, and business women are joining and nightly schedule of activities are going forward.

The 324th Heavy Field Artillery has a regimental song which the men are learning to sing properly, under the direction of an officer. Copies have been printed on handbill sheets and given to each man. At the top of the sheet is a note saying: "Colonel Ashburn expects every man to do his bit, so sing and do yours." Here are the words to the song, sung to the tune of "Boola, Boola":

Oh here we are. Oh here we are, We are training for a short and bloody war.

With shot and shell, we'll give them hell, And they'll never want to see us any more.

We give ourselves to Uncle Sam—We don't give a tinker's dam. With our six inch guns, we'll get those Huns.

And then return to Uncle Sam. For we're training, yes, we're training.

To beat the kaiser; to beat the kaiser, And we'll beat him when we meet him. With our Heavy Artillery.

With its hundreds of visitors and thousands of soldiers, Chillicothe has a police problem that is no small one these days, but the city council took steps to remedy the situation the other night. Each member was sworn in as an officer. Mayor Cahill was author of the move, suggesting it after several of the city fathers had told him of having opportunities of regulating traffic and other matters but being prevented from doing so because they lacked the authority. By unanimous vote, the councilmen decided to have special police badges for their own use.

By order of Colonel Barnhardt, commander of 329th Infantry, the following Lorain county selects have been given warrants as corporals, being among the last to be named in the regiment. August T. Hauer, George E. Aberhalden, William R. Cole and Howard E. Evans.

It took but a very few days for the selective draft soldiers at Camp Sherman to learn guard duty. Now they know just what to say and how to say it when they see a dark form coming toward the guard lines.

A newly-arrived chaplain was out visiting the other evening and taps sounded before he could get back to his quarters. As he neared his section, a guard heard him.

"The chaplain," was the reply. The guard hesitated but an instant.

"Advance, Charley, and be recognized."

One of the barracks duties that the selects has been lifted. Doing kitchen duty was irksome, tiresome, distasteful, and in most instances, real toil. It was such work as washing dishes, scrubbing, peeling potatoes, etc.

Now that work is done by young men who step over the bounds of military rules and regulations. Such things as oversteering a pass or being out late is liable to bring "kitchen police" duty for 30 days. It is to the military camp what is known as "rock pile," or "on the roads" is to the civilian who violates the law.

Folks back home in Toledo and the northwestern part of the state may get to refer to the "singing 329th," when they speak of their boys. If the 329th doesn't turn out to be the singing regiment of the 32nd division, it will be through no fault of efforts, for it certainly is leading in that particular branch of "intensive training" today.

Nearly a thousand selects from Toledo are in the regiment. Companies A, B, C, D, and the supply company are Toledo companies. The commercial club of Toledo recently sent a delegation down to visit the boys and left a fund for their use in emergencies. Also, they left

Harry King, an old vaudeville singer, behind. King once made a specialty of getting his audiences to join with him when he sang. So he started the same practice when he came to Camp Sherman. The result is the "singing 329th."

A pamphlet of songs, most of them popular songs, was compiled and a copy given to each man with a request that he learn the words to all selections therein. Then King spent a week in camp leading the singing, usually with a whole battalion as one class. Then he took a couple of companies at a time and finally started picking out the individual talent.

A good start has been made in selecting singers for a glee club of 100 voices.

In searching for talent, King believes he has made a discovery. A private—Clark, by name—who was a bartender in Toledo, was found to have a splendid tenor voice—the best in the regiment in King's estimation. Every regiment is having its "sings" every week. Usually a company or a battalion at a time. In all of them are splendid voices.

The idea of the sings is not so much to develop individual, quartet, or chorus singers, as to get everyone in camp to singing.

"Sing yourself to victory," is an expression that is not new through the various cantonments of the United States.

FEDERAL AGENTS PROBE**PLOT TO STEAL FORD BABE**

(Associated Press Telegram) Detroit, Nov. 2.—It became known today that federal agents in Detroit are investigating an alleged plot to abduct or kill Henry Ford II, infant son of Edsel Ford, and grandson of the multimillionaire manufacturer. A letter demanding \$10,000 from Edsel Ford, as the price for the baby's safety, was turned over to postoffice inspectors several days ago. It is understood that one man has been detained and that several arrests are impending. The letter was signed "Sicilian Anarchists' Association." It demanded that the money be sent to "Gus Adams," and said it would be called for at the general delivery department. A youth, who called at the general delivery window "for a parcel for Gus Adams," was taken in custody, it is reported.

FOOD PLEDGE CAMPAIGN**CONTINUES NEXT WEEK**

(Associated Press Telegram) Columbus, Nov. 2.—Because it was found to be a physical impossibility to reach every family in Ohio this week with the food administration's pledge cards, Dr. D. F. Garland, campaign director for Ohio today decided to extend the campaign into next week.

While reports from various sections indicate the assured success of the food administration's campaign for food conservation pledges from Ohio housewives, figures as to the total number enrolled were not available because reports were being held up by the county chairmen until the end of the present week.

FOUR MILLIONS SIGN.

(Associated Press Telegram) Washington, Nov. 2.—Official tabulation of reports at headquarters here of the food-pledge week campaign show that more than four million women have signed the card pledging themselves to conserve food. There are still eight states that have not reported, and in those cases where results have been received, they are far from complete, and in but few instances include any of the county districts.

Indiana reports the largest number of cards signed since the last tabulation—37,211—which gives her the highest enrollment of all the states that have reported so far—147,493. Case Dismissed. Homer G. Woolard asked that his divorce petition against Mamie P. Woolard, filed in probate court, be dismissed, and his motion was allowed by the court.

TWO ALARMS FAIL TO PRODUCE FIRE

The firemen at Central station are now comfortably quartered in the council chamber in city hall, while their old, gloomy dormitory is being overhauled and made presentable for human habitation.

They received their first call from their new quarters last night at 10:30 o'clock, an alarm having been sent in from South Fifth street. A defective flue in the chimney on the house of Wm. Shields was responsible for a rather catching fire, which was easily extinguished with a bucket of water. The damage was slight.

An alarm at 5 o'clock last evening called the Central department to the plant of the American Bottle company, but it proved to be a false alarm. Smoke, seen issuing from an old shed, caused someone to send in the alarm. It was caused by employees boiling tar.

ALLIES CAN USE ONLY WHEAT SAYS FOOD BOARD

Washington, Nov. 2.—Reasons why American corn, potatoes, flour and other food stuffs, which Herbert C. Hoover asks be substituted for wheat, are not shipped to the allies so that they may make the substitution, thereby making it unnecessary for the people to reduce their wheat consumption, are given in a statement issued by the food administration today. The question had been raised by many persons in connection with the signing of food conservation pledge cards.

In answering this objection attention is called to the fact that European nations are already using from 20 to 50 per cent. of corn, potato and other adulterants in the manufacture of their daily bread.

The British government, the statement adds, requires a 20 per cent. adulteration in all wheat bread and will permit a maximum of 50 per cent. Adulteration beyond 50 per cent. it has been found, does not make a healthful loaf.

In the case of corn, it is pointed out that this commodity in the form of meal cannot be shipped because it would spoil in transit. As to the whole grain, there is the objection that the people on the other side have no mills in which to grind it. Furthermore, corn bread cannot be baked successfully in baked goods which European people depend almost exclusively for their bread. In addition it does not keep well, and with the dearth of paper in Europe, it would be difficult for purchasers to carry it home.

MT. VERNON MAN HEADS COUNTY DENTAL SOCIETY

A meeting of the W. D. Miller Component Dental Society of Knox and Licking counties was held in the Masonic Temple, Thursday. The first part of the meeting was given over to the business of the society and officers were elected for the coming year as follows: President, C. D. Beck, Mt. Vernon; vice president, Dr. E. V. Prior, Newark; corresponding secretary, J. D. Ford, Newark; recording secretary, Dr. C. W. Roelhorn, Pataskala; treasurer, Dr. W. L. Deesley, Mt. Vernon. Dr. J. W. Kohrer, Granville, was elected to the house of delegates for the state convention to be held in Cleveland in December.

On the program for the afternoon were two lectures—one on "Dentures," by Dr. H. V. Cottrell, Columbus, and one on "Crown and Bridge Work," by Dr. Talbot, Columbus.

At 8:30 o'clock a banquet of attractive appointments was served in the Masonic Temple. The following dentists were in attendance: Drs. E. V. Prior, A. V. Davis, H. S. Barrick, A. W. Beard, C. H. O'Hara, W. G. Corne, W. H. Sedgwick, J. H. McCahon, C. L. Wyeth, J. D. Lewis, Newark; Drs. C. D. Beck, W. B. Grossman, W. L. Deesley, Mt. Vernon; Drs. J. W. Kohrer, L. E. Davis, Granville; S. M. Larick, Fredericktown; W. J. Ogg, Utica.

CLEVELAND MEN VISIT**BOYS AT CAMP SHERMAN**

Cleveland, Nov. 2.—A special train will carry 150 prominent Cleveland business men to Camp Sherman tonight to attend Cleveland day at the camp tomorrow. Charles E. Adams, chairman of the executive committee of the war work campaign of the Y. M. C. A., will head the party, composed of captains and team-workers who are raising one-million dollars here for the work. The visit will be in the nature of showing just what is needed by the soldiers at Camp Sherman.

Have You Visited The Big Ready-To-Wear Department?

There is always something new in this department, and therein lies the secret of our success in creating the most favored store for tailored wear in the city. The complete assortments appear just as if Nature as well as manufacturers were conspiring for us, and here may always be found the very latest in style motifs. If some of the stock laps over a little, then it is clipped off by sharp reductions in prices (the clearance sale of suits is an example of this), and thus we have, in addition to unusual values, a newness and crispness that makes it worth while to come here every day. Several interesting features are scheduled for tomorrow.

GRANVILLE

(Special to The Advocate)

Granville, O., Nov. 2.—Friends in Granville have received invitations to the marriage of Miss Margaret Faye Marlow and Dr. Arthur Galveston Catt, Saturday, Nov. 10, at the First Baptist church, Niagara Falls, N. Y. Miss Faye was graduated from Denison University in 1905 and later took a course in the Presbyterian Hospital, Chicago and has been a

successful nurse since. Cards enclosed with the invitation indicated that Dr. and Mrs. Catt would be at home after Jan. 1 at Rensselaer, Ind. The Denison band will furnish music for the meeting at the opera house tonight when Clifford L. Jackson of Indiana will speak.

Arrangements are being completed for the funeral of Dr. E. B. Andrews which will be held here next Tuesday. Dr. Andrews was a former president of Denison university. University trustees have authorized the burial in the college cemetery.

KATHERINE CLARK AND HENRY BURE

It's called a "wireless novelty," and it earns its title, does the lively little ditty of love and war called "Hello, My Soldier Boy," sung for Columbia by Katherine Clark and Henry Burr. The zippy click and tinkle of the wireless is heard as a staccato accompaniment all through the duet, in which are introduced some of the most quaint and pleasing musical effects imaginable, as the soldier's girl sends her love "over and through the atmosphere" to the soldier boy.

Columbus Youth Missing.
Miles Mitchell, 14 years of age
and about five feet tall, weight
about 105 pounds, scar back of the
right ear as a result of an operation,
dark brown hair and eyes and a
very good looking colored youth, ran
away from his home in Columbus on
August 31, and has not been heard
from since. His mother, Mrs. Cora
Mitchell is very anxious to locate
him and will thank any one for in-
formation which may lead to his de-
tention. If located wire the office
of the board of state charities at Co-
lumbus.

Elk Pinocle Tournament.
The Elk pinocle tournament
started last evening. There are 36
players entered, each of whom will
play seven games a night until a to-
tal of forty-nine have been tabulated.
The different players change part-
ners each evening and a percentage
table is being kept and at the end
of the tournament the eighteen hav-
ing the highest percentage will be the
guests of the other eighteen at a ban-
quet to be given at the close of the
tournament. Much interest is being
taken in the event and the crowds
around the tables indicate that it is
a hard fought battle.

Case Was Dismissed.
Mayor R. C. Bigbee heard the evi-
dence in a case where in a woman
residing in Wehrle avenue accused
a man of stealing a pair of eye-
glasses, a pair of infant's shoes, a
half dozen handkerchiefs, and \$1.50
in money, from her home. The
mayor decided that the case was
rather flimsy and dismissed it. An
offender was fined \$8 for being
intoxicated.

Jaw Bone Fractured.
William H. Robinson, motorman,
living in Western avenue, was se-
riously hurt while cranking a Ford
machine last night. He kept hold
of the crank after spinning it and
his face was driven toward the crank,
which struck him in the face, break-
ing his jaw bone. Dr. P. H. Cosner
was called to dress the injury.

STUBBORN ECZEMA HEALED BY AMOLOX

The New Discovery for the Relief and
Cure for Chronic Skin
Diseases.

We are daily receiving letters of
praise from people who have been cured
by Amolox. Many of them tell how, for
years, they have tried different reme-
dies and doctors in the vain effort to
find relief. Some become discouraged
and lose all hope of ever being cured.
E. E. Francis, 187 Sycamore St., Mans-
field, O. writes: "Our baby's face was
covered with eczema scales, sores and
scabs. She was a pitiable sight. We
tried everything. Took her to Pitts-
burg doctors but were unable to find
any relief until we used Amolox. It
cured her within a short time."
Amolox Ointment alone will quickly
banish pimples, blackheads and take
out all redness of the skin and cure
most forms of skin disease. Bad, chron-
ic cases of Eczema, Psoriasis, Tetter,
that have lasted for years, yield more
quickly when both ointment and liquid
are used. Trial size 50c. T. J. Evans
Drug Store, of Newark, guarantees
Amolox, and will refund the money if
it fails to give satisfaction.

'GRANDEST EVER' SAYS MRS. BELL OF NERV-WORTH

When All Else Failed This Famous
Family Tonic Brought the
Answer.

A wholly new signed endorsement
this time from a Martinsburg, W.
Va., user:
"I was very weak and nervous.
Shortness of breath. At time I
thought I would choke. Stomach was
in bad condition and my food seem-
ed to ferment and form a gas which
interfered with my heart action.
Could not get any restful sleep and
was losing my strength so fast that
I could not keep up my household
duties.

"I saw Nerv-Worth advertised and
read of the great benefits to others.
so I concluded to try it, although
other remedies I had used did me no
good. One bottle of Nerv-Worth has
made a different woman out of me.
ALL THE AILMENTS ABOVE MENTIONED
ARE GONE and I have
gained weight and strength. I shall
keep Nerv-Worth in my house all the
time as I think it the grandest medi-
cine I have ever known of."

"MRS. EVA BELL,

WILLIAM E. MILLER

Candidate for re-election to Board
of Education makes statement to the
public.

After several years membership of
Board of Education, I consider it a
great honor to be connected with a
public school system of the high
standard and reputation of the New-
ark schools.

Our schools have grown in reputa-
tion until they are recognized not
only in Ohio but throughout the
middle west as among the best pub-
lic schools in the country.

During the years I have been a
member of the Board, I have fear-
lessly advocated those things that
have proven of worth to the school.
If re-elected, I shall continue to give
the schools the best service of which
I am capable.

I have always been in favor of
well paid teachers, and only regret
that the Board's finances have not
permitted the board to pay higher
salaries to teachers.

I have been in favor of good build-
ings, and think it is about time that
the east should have better build-
ings than the two old buildings now
in use on East Main street.

I favor progressive methods, pro-
gressive teachers, including princi-
pals, and superintendent and believe
that such is our present school sys-
tem.

My efforts shall be to work and
vote for the best interest of the
schools, and thus serve the highest
interest of the children and the pub-
lic.

Respectfully,
WM. E. MILLER,
11-2-d-3t

SOLDIERS' LETTERS

Editor of The Advocate—I am in
receipt of the medal and letter of the
27th inst., and will now endeavor to
express my appreciation of same. The
people of Licking county do not re-
alize what these medals mean to us
boys in the service, who have broken
all home-ties to give our services to
the country. It is just this kind of
things from the "folks at home" that
make the boys do their best. I con-
sider myself the luckiest boy in camp
and have had many compliments
passed on the medal. I am the only
one here from Licking county, and
consequently I am the only one hav-
ing one of these medals. I will take
care of it with care and value it
very highly long after this war is
over. Words fail me in my thanks
to you and the people of Licking
county, but I think they can gather
from what I write that their efforts
have not been wasted. The receipt
of the medal is enough in itself to
convey to me the trust they have put
in us boys, and it inspires all others
as it does myself to do their best for
the ones back home and country.
The ones back home are truly my
Crawmer, Battery B, 324th Regiment
F. A. Heavy, Camp Sherman, Chillico-
the, O.

Editor of The Advocate: Yours of
the 27th inst. received and carefully
noted. To say that I appreciate
same is putting it lightly. I think
the work you are doing and have
done is great and I am sure all the
boys from Licking county will ap-
preciate the medal as highly as I do
mine and I assure you that it is
something that I will keep and cher-
ish most highly as long as I live.
Wishing you all the success in the
world, I remain your truly,
W. F. Crawmer, Battery B, 324th Regiment
F. A. Heavy, Camp Sherman, Chillico-
the, O.

Editor of The Advocate:—I re-
ceived your most welcome letter
with that beautiful medal enclosed,
and it sure is a "beaut." Everybody
that I have shown it to thinks it is
fine and they all wish they came
from such a fine county. But there
is no one in our part of the bar-
acks who came from Licking. They
are from all parts of the Union.
I want to thank you and all of the
other people who contributed to the
soldiers and sailors medal fund. I
have seen some other fellows from
Newark but I do not know their ad-
dresses, but as soon as I find out I
will let you know. I thank you and
the people of dear old Licking coun-
ty for the medal.—I remain, yours
truly, Arthur Riedel, Camp Farragut,
Great Lakes Naval Station, Co.
39, Great Lakes, Ill.
